Winter personality

EVERY SEASON HAS ITS COLORS

In color psychology there is a theory about the four seasons - spring, summer, autumn and winter - being used as a concept to create distinctive characteristics and propose four different types of personalities.

Winter personalities are ambitious, decisive, intelligent and glamorous. They enjoy drama and leadership and are highly focused to detail and seek perfection in every aspect of their lives. Winter colors are cool, sharp, bright, intense and clear, with white being the core foundation for the look and feel.
